

Roxanne Journet

Senior Interior Designer

About

I have worked in interior design across Europe, North America and Australia for over a decade. My professional approach is simple: true collaboration produces the best results. I work hard to understand people's needs, and challenge them to push their own boundaries. I ensure they are involved in the process, and feel a sense of ownership and personal achievement.

What I offer

- Global experience across three continents (Europe, North America and Australia)
- Strong creative concept development, recognised through awards success
- Proficient in AutoCAD, SketchUp, Vectorworks and Adobe Creative Suite
- Experienced design teacher, nurturing tomorrow's talent
- Thrive on solving problems for my clients through design
- Project management experience
- Ability to adapt quickly to new environments and roles
- Bilingual

Other interests

I'm passionate about design and architecture. Out of the office, I love to cook and was raised on books. I enjoy restoring furniture, pottering in the garden, and Sydney's beaches. Once COVID's behind us, I'm looking forward to jumping on a plane and travelling again.

Neuf Architectes (Montreal)

Senior Designer, July 2014- May 2019

Diverse senior role working across retail, corporate, retirement housing and multi-residential. Neuf is one of Quebec's largest architecture practices, working on flagship projects both in Canada and overseas. They employ 155 staff in their Montreal head office.

Primary responsibilities

- Concept development
- Client liaison, presentations and weekly meetings
- Management of a team of five designers
- Coordination with other project professionals (architects, engineers, etc)
- Plan review
- Materials and techniques research
- Creation of service agreements, minutes and other formal documentation
- Preparation of presentation documents. Plan renderings and material sample boards.
- Clients: QMD Menard, Waterford Retirement Group, Morgan Stanley, Broccolini, Ville de Montreal, Allied Property, Pratt & Withney, Schluter, Groupe Equinox

Optima Design (Montreal)

Senior Designer, January -July 2014

Working on a variety of retail projects from large roll-outs to standalone boutique retail stores. Optima is a leading full-service Canadian bureau that specialises in retail, entertainment, food, hospitality and offices design, with over 20 employees.

Primary responsibilities

- Production of technical plans (including furniture and addenda). Site visits/surveys.
- Specification of finishes and approval of equivalencies
- Ensuring coordination between the client, GC, subcontractors and suppliers
- Clients: Dynamite, Aqua, Garage, Item, BRP, Harley Davidson

Bisset Adams (London)

Project Manager, April 2010- May 2013

Managing the rollout of Opel car dealership showrooms throughout Europe. Bisset Adams are a boutique agency, specialising in architecture, design, automotive and retail for over 25 years. They have 45 employees in their London head office.

Primary responsibilities

- Management of a team of 10 European design consultants and local architects
- Conceptualisation and development of interior and exterior design solutions
- Recruitment and training of new designers
- Creation of guidelines for branding and image development
- Development of templates as working tools and local language translation
- Site visits/surveys. Production and quality verification of all plans
- Organisation of client/dealer training days for new concept introduction
- Clients: Opel

GHA (Montreal)

Designer, November 2006- November 2008

Junior designer working across several teams and a wide variety of projects. GHA are one of North America's leading retail design firms, with over 80 employees.

- Branding and image development, signage development
- Store layout and master planning on CAD
- Presentation document preparation, perspectives and colouring, concept sketching
- Site visits/surveys. Master planning and plan development (hand-drafting).
- Clients: Fido, Rogers, Point Zero, Key West, Tess clothing, Temecula, Citrus Park
